

ROBERT HUBRECHT OBE PhD CBiol FSB

Chief Executive and Scientific Director, Universities Federation for Animal Welfare (UFAW) and the Humane Slaughter Association (HSA)

Dr Robert Hubrecht is an ethologist with interests in animal welfare. His research has included studies of the welfare, behaviour, physiology and natural history of farm animals, New World primates, and kennelled dogs.

Robert has served on numerous advisory committees, including the national UK Animal Procedures Committee during which chaired the Housing and Husbandry Sub-Committee, and the US National Research Council Distress Committee, and also on expert groups providing advice on the development of UK and European legislation.

He co-edited the 8th edition of The UFAW Handbook on the Care and Management of Laboratory and Other Research Animals and, in 2014, completed a book entitled The Welfare of Animals Used in Research: Practice and Ethics, which gives a complete and balanced overview of the issues surrounding the use of animals in scientific research.
